Nationality: Indian

Present Address: Doha, Qatar

Visa Status: Work Visa (Transferable)

SUMMARY

IT professional with 8+ years of experience in enterprise application development, production support, system integrations, SQL/database development, REST APIs, and workflow-driven business applications. Experienced in large-scale enterprise environments, application customization, troubleshooting, stakeholder management, and backend development using Java and cloud technologies.

EXPERIENCE

Software Engineer

Rafeeq – Doha, Qatar

08/2025 – Present

- Architected and developed backend services for Super App Event Booking integration.
- Optimized APIs and database schemas for Market & Grocery vertical, improving high-volume transaction performance.
- Contributed to Rafeeq Go ride-hailing platform, developing trip lifecycle management, driver allocation, and real-time tracking systems.
- Designed scalable RESTful APIs supporting 7,000+ partner businesses across multiple verticals.
- Reduced checkout latency and improved app performance during peak traffic.

Tech Stack: Node.js, Express.js, REST APIs, Microservices, PostgreSQL, Redis, AWS, Docker, Kubernetes, Git, CI/CD.

Senior Software Engineer

News Corp India – Bangalore, India

04/2023 – 07/2025

- Leading feature development and 24/7 support for large-scale publishing platforms.
- Improved CI/CD pipelines using Docker, Kubernetes, and GitLab.
- Mentored junior developers and led Agile sprint activities.
- Engaged directly with UK stakeholders during a business visit for knowledge transfer and project alignment.
- Contributed to architectural discussions and long-term system improvements.

Tech Stack: Java, Spring, REST APIs, JSP, AWS, Git, Docker, Kubernetes, GitLab CI/CD, SQL, Bash, Shell Scripting, HTML, CSS, JavaScript

Software Engineer

News Corp India – Bangalore, India

01/2021 – 03/2023

- Developed and maintained core modules for enterprise publishing systems.
- Provided production support and resolved high-priority issues.
- Supported cloud migration efforts and ensured system performance.
- Collaborated closely with UK-based teams in a fast-paced Agile environment.

Tech Stack: Java, Spring, REST APIs, JSP, AWS, Git, Docker, Kubernetes, GitLab CI/CD, SQL, Bash, Shell Scripting, HTML, CSS, JavaScript

Production Operations/Support Engineer

News Corp India – Bangalore, India

11/2017 – 12/2020

- Ensured 24/7 uptime for Tier 1 Print & Digital Media applications at News UK.
- Provided support on Linux & Windows platforms; resolved critical production issues.
- Automated AWS infrastructure using Terraform and led migration of apps from on-premise to AWS EC2.
- Developed monitoring dashboards for app health, crash logs, and Active Directory.
- Delivered permanent fixes and improved system performance through root cause analysis.

Tech Stack: PHP, Javascript, HTML, CSS, shell scripting, python

SKILLS

Application Support & Operations:

- Incident Management, Root Cause Analysis (RCA)
- Production Support & 24/7 On-Call Support
- System Monitoring & Performance Tuning
- Ticketing System Management
- SQL & Database Development
- Workflow-Based Applications
- Business Process Automation
- Enterprise Application Support
- Application Customization
- System Integration

Backend & Frontend Technologies:

Java, Spring Boot, Python, Express.js, React.js, JavaScript, TypeScript

Cloud & Infrastructure:

AWS (EC2, S3, DynamoDB), Terraform, Docker, Kubernetes, CI/CD Pipelines

Databases:

PostgreSQL, MongoDB, DynamoDB, Redis

Tools & Protocols:

REST APIs, OAuth, Microservices Architecture, Git, Agile Methodologies

EDUCATION

Masters of Computer Applications

Sikkim Manipal Institute of Technology – Sikkim, India

08/2016

CERTIFICATIONS

- **BIGDATA with Hadoop (.NET)** – Globsyn School
- **Foundations of Cybersecurity** – Google
- **Building Secure Software** – KnowBe4
- **ITIL Foundation Certification** – PeopleCert
- **The Complete Prompt Engineering Course** – Udemy
